How to play

Find every word from the list under the grid.

1. Words run **left to right** or **top to bottom**. Never diagonally and never backwards.
2. Two words may cross and share a letter.
3. Cross the word off in the grid and tick its box in the list as you go.

Every word in the list appears in the grid exactly once. A computer checked that in all eight directions, puzzle by puzzle — so if you found it, that is the one.

Printing: US Letter or A4, scale 100%. If your printer offers “fit to page”, switch it off — that is the setting that shrinks the letters. Each square is 16mm across, about 0.6 inches.

Print as many as you like

These 6 sheets are free for personal use **and for group use**: care homes, memory cafés, day centres, waiting rooms, occupational therapy, ESL and classroom work. Print as many copies as you need, for as many people as you like.

What you may not do is sell these sheets or fold them into another product.

There is no book to buy at the end of this pack and no email to hand over. If you want sheets with **your own** words on them — the first names of the people in the room, a street, a hymn, the towns they grew up in — the builder that made these is free on the same site.

Need the names of the people in the room?

These six sheets are ours. The next six can be yours: type your own list — first names, a street, a hymn, the residents' home towns — and the same builder that made these prints a fresh sheet with its own answer key. Free, in the browser, no account and no email.
